Understanding the risk factors

What you need to be aware of

Buying a Wealth Accumulation Plan is a medium to long term commitment so you may get back less than the amount shown on your personal illustration if:

- investment growth is lower than expected
- charges increase above those illustrated
- you take more money out of your policy than illustrated.

Your policy will be subject to market fluctuations which could affect the value of your investment, and you may get less than the amount originally invested.

The value of your policy will be subject to currency fluctuations if you are paying premiums in one currency but invest in funds based in another currency or where individual funds invest in foreign currencies. Please keep in mind that there could be significant movements between the currencies.

The level of risk and potential investment performance depend on the fund(s) chosen.

Information on the specific risks associated with investing in a particular fund can be obtained from our website www.zurichinternational.com.

If you fully surrender your policy before the fifth policy anniversary or, within the first five years after you pay in an additional premium, we will apply a surrender charge.

Full details of our charges are in the charges section on page 7. Charges may be subject to variation. If there are changes we will inform you in writing with at least three months' notice unless it is not reasonably possible in the circumstances.

Death benefits

Death benefit

On the death of the last life insured, we will pay out 101% of the policy's surrender value when we receive satisfactory notification of death.

Enhanced death benefit

An enhanced death benefit will be paid out based on the following terms:

- If the youngest Life Insured was aged 50 or less when the Policy started, and the death of the last Life Insured occurred within fifteen years of the Policy start date, then:
 - the enhanced death benefit will be the greater of 101% of the Surrender Value of the Policy,or
 - the total premiums paid less any withdrawals taken during the first fifteen years of the Policy.
- If the youngest Life Insured was aged between 51 and 60 when the Policy started, and the death of the last Life Insured occurred within five years of the Policy start date, then:
 - the enhanced death benefit will be the greater of 101% of the Surrender Value of the Policy,or
 - the total premiums paid less any withdrawals taken during the first five years of the Policy.

If the death of the Life Insured was from a self-inflicted injury, the enhanced death benefit will not be paid.

Funds

We offer a wide range of funds most of which are managed externally. These funds cover a comprehensive range of investment styles, risk levels and asset types.

- Our own managed fund range offers diversification across equities, cash and fixed interest securities.
- Our money market funds invest in cash, money market instruments and international fixed-interest securities.
- Some fund managers take a charge before investing your payment and take an annual management charge. These will be reflected in the fund prices. Otherwise all your payment is invested in the funds you choose.

When you invest money into a fund you will buy units, which are like shares, in your chosen funds.

- The value of the units will increase or decrease depending on the investment performance of the funds. The value of your policy, at any time, will be the current value of the units in the funds you have chosen less any charges. Your surrender value will be the current value less any outstanding surrender charge.
- Rather than selecting the funds yourself, you may prefer to appoint a fund investment adviser to provide investment advice, or to manage your investment on your behalf by sending switch instructions directly to us. You can choose to pay your appointed adviser a fund investment adviser charge for the service they provide by way of automatic deductions directly from your policy.
- Further details and a full description of all the funds can be found in the Zurich Collection Guide (Mirror, Managed and Money funds) or on our website www.zurich.ae.

About Zurich

Zurich International Life

Zurich International Life is part of the Zurich Insurance Group which is headquartered in Zurich, Switzerland. The Group is a global insurer with superior financial strength, a talented workforce and a highly valued brand. Acting as one team with one purpose we take a global approach to resources and capabilities. The Group applies these strengths to help our individual, commercial and corporate customers understand and protect themselves from risk.

We're in business to help our customers understand and protect themselves from risk. Risk is part of everyone's life. Individuals, families, businesses and communities can prosper only when they are protected against critical risks. We help our customers to manage the risks they face, making their lives more secure and helping them to grow their businesses.

The Wealth Accumulation Plan is designed to meet legal and regulatory requirements for customers resident in the country in which it is purchased. Should the policy owner or the life insured move to another country during the term of the policy, it may no longer be suitable.

Laws and regulations in a different country may affect our ability to continue to service the policy in accordance with the terms and conditions and we may no longer be able to provide all the benefits under the policy. We may, for example, be unable to process switch instructions in connection with the policy or accept future premiums. The policy owner must advise us of any change to country of residence during the term of the policy prior to such change becoming effective. In these circumstances, and subject to the policy owner's consent, we may provide contact details to another company within the Zurich Insurance Group in order to check whether there is an alternative product suited to the new situation and country of residence.

Any assignment of the policy to a person resident in a different country from the policy owner may be subject to the above provisions.

The Isle of Man

The Isle of Man offers distinct benefits as a base for your investment and protection policies, which include:

Financial and political stability – the Isle of Man has one of the longest standing continuous parliaments in the world, and the island has enjoyed the stability of its own government for more than 1,000 years.

Robust insurance and policy owner protection legislation – the island is a world renowned thriving financial centre with stringent legislation, which includes:

- The Isle of Man Insurance Act 2008 ensures that senior management and controlling parties of insurance businesses are fit and proper, and that the companies are financially sound.
- The Isle of Man's Life Assurance (Compensation of Policyholders) Regulations 1991 ensure that, in the event of an Isle of Man authorised life assurance company being unable to meet its liabilities to its policy owners, the Policyholders' Compensation Fund would pay policy owners a sum up to 90% of the amount of any liability of the insurer under the contract. The Island's scheme operates globally, providing protection to policy owners no matter where they reside and would be funded by a levy on the funds of the other Isle of Man authorised life assurance companies.

Taxation

There are no deductions made in respect of any tax in the Isle of Man from investments held on behalf of our investors, or from any policy proceeds in the event of a valid policy claim.

You should note that the tax treatment of any benefits taken from this policy will depend on the personal circumstances of the claimant at the time of the claim, including their country of residence.

If your policy is held by a trust or company then different taxation rules may apply. Please consult your relevant financial professional if you are in any doubt as to the extent to which you may be liable to tax under this policy.

The information contained in this document is based on our understanding of relevant legislation, regulation and taxation issues as at May 2015 and may change in the future.

Zurich International Life is unable to provide individual tax guidance and recommends that you always seek professional tax advice.
