Regular Savings Plan

Regular Savings Plan is a whole of life, unit-linked, regular premium savings policy which pays a death benefit on the death of the first life insured. There is an option to add the waiver of premium benefit which helps protect your savings goal in the event of a disability caused by an illness or accident.

Please refer to the Policy Terms and Conditions for detailed information on the benefits.

Your financial professional will help you decide if this policy is right for you and the funds you should invest in.

Why choose Regular Savings Plan?

The policy is designed to:

- Allow you to save on a regular basis towards your goals such as funding your children's education or for your comfortable retirement.
- Give you the option to choose the waiver of premium benefit to protect your savings goal.
- Let you decide how regularly you want to save and for how long.
- Allow you to change your regular savings amount based on your needs.
- Allow you to take regular withdrawals or partial surrenders as long as a minimum policy value remains.
- Enable you to invest your regular savings with the aim to increase its value and help meet your financial objectives over the medium to long term.
- Offer a wide range of investment funds to suit your risk profile.
- Allow you to choose from a range of currencies to save in.
- Provide a payment on death of at least the policy value at the time.

Your commitment

What we ask you to do:

- Provide us with all the information we ask for at the time of applying for your policy.
- Answer all the application questions truthfully and accurately.
- Ensure you are satisfied that you understand the important aspects of your policy and the funds you choose, especially the associated risks and charges.
- Invest for the medium to long term.
- Seek on-going financial advice; you should seek advice before you make changes to your policy and whenever your circumstances change.

If you choose any optional benefits, we also ask you to:

- Let us know about any changes in your health, family history, occupation or country of residence before your cover starts.
- Let us know if you take up any hazardous activities between signing the application and when your cover starts.

Understanding the risks

Investing in a Regular Savings Plan is a medium to long term commitment. The policy does not have any capital guarantee. Investments carry varying degrees of risk. Your policy value may fall as well as rise depending on the performance of your investment funds and you may get back less than you originally invested.

Investment risk

The investment options available under this policy have different features and risk profiles.

You should ensure that you are aware of the level of risk and the potential investment performance of the funds you choose under this policy. Your financial professional can help you to decide the funds that suit your risk profile.

If the growth of the underlying assets does not cover the charges of the product, this will reduce the value of your policy. The value of funds can fall as well as rise and is not guaranteed. If you choose to invest in more volatile funds and/or funds with a higher risk rating, the risk of not achieving your illustrated growth rate is increased as greater risk/volatility could result in larger and more sudden falls in the prices of funds compared with less volatile and/or lower risk rated funds.

Further information on the funds offered with Regular Savings Plan, the fund prices, charges and fund performance data are available on the Zurich UAE fund centre on our website www.zurich.ae.

Other considerations

Benefit claims – Failing to answer all the application questions fully, truthfully and accurately when you apply may lead to a claim for the waiver of premium benefit not being paid.

Stopping premiums – If you stop paying premiums the waiver of premium benefit and its charges will stop, however, all other policy charges continue to be deducted.

Currency – If the underlying investments chosen are in a currency which is different to that of your policy, you will be exposed to currency exchange risk in addition to investment risk.

This can increase volatility and exaggerate investment gains or losses. Currency conversion will also apply in the event of switching funds between currencies or making withdrawals from funds which are in a different currency to the policy. All the costs associated with the currency conversion will be charged to the policy.

Regular withdrawals or partial surrenders – If you make regular withdrawals or a partial surrender, your policy value will be reduced and if the policy value falls to zero the policy will lapse.

Policy details

Ownership of the policy

Regular Savings Plan is available:

- on a single ownership basis, company or trust
- on a joint ownership basis

The policy can be written on one of the following life insured basis:

- own life – you are the policy owner and the life insured;
- joint lives, first death – you and another are both the policy owners and the lives insured;
- life/lives of another – you are the policy owner, but someone else is the life insured.

Age eligibility

At policy commencement date:

- Policy owner – minimum 18 years of age, maximum 74 years of age.
- Life insured – minimum 18 years of age, maximum 74 years of age (59 if the waiver of premium benefit is selected).

If the waiver of premium benefit is chosen:

- The waiver of premium benefit will end when the life insured reaches age 70.

Policy term

Regular Savings Plan is a whole of life policy, which means there is no fixed length of time that the policy has to be held for. In order to increase the potential for capital growth, this policy has been designed to be held for a minimum of 5 years.

Policy currency

The policy currency is chosen by you when you apply, shown on your policy schedule and cannot be changed.

The options are: USD, GBP or EUR.

Premium payment term

You can choose to pay your regular premiums for a period between 5 and 20 years.

Regular premium payment options

Monthly, quarterly, half-yearly or yearly.

Premium indexation option

If you choose to apply regular premium indexation to your policy, we will increase your regular premium at each policy anniversary by 5% without requiring any further information. This means the amount you save regularly can keep pace with any increases in the cost of living over time.

Paid-up

Your policy will become paid-up if you stop paying regular premiums.

When your policy is paid-up:

- We will continue to deduct the policy charges.
- If your policy includes waiver of premium benefit, the benefit and its charges will stop.
- If your policy value cannot sustain the policy charges the policy will lapse without value and will come to an end.
- Once a policy has lapsed, it cannot be reinstated.

Investment choices

We offer a wide range of funds most of which are managed externally. These funds cover a comprehensive range of investment styles, risk levels and asset types.

You can create your own portfolio of up to 30 funds at any one time with the help of your financial professional.

You may also choose to appoint a fund investment adviser to provide investment advice, or to manage your investments on your behalf by sending switch instructions directly to us. While setting up the policy you can choose to pay your appointed adviser a fund investment adviser charge for the service they provide by way of automatic deductions directly from your policy.

Further information on the funds offered with Regular Savings Plan, including the fund prices, charges, fund performance and historical data are available on the Zurich UAE fund centre on our website www.zurich.ae.

USD	50	150	300	600
GBP	35	105	210	420
EUR	40	120	240	480

Death benefit

If the life insured dies the amount payable depends on:

- the age of the life insured (or the oldest life insured for joint policies) at the start of the policy, and
 - how long the policy has been held.
1. If the oldest life insured was aged 49 or younger at the start of the policy and the policy has been held for less than 10 years, the amount we pay out will be the greater of:
 - the policy value, or
 - the total premiums paid less any withdrawals.
 2. If the oldest life insured was aged 50 or more at the start of the policy or the policy has been held for more than 10 years, the amount we pay out will be:
 - the policy value.

Waiver of premium benefit

- This is available either on a single life basis or on the first life insured on a joint life policy.
- The benefit is available to the life insured who pays the premiums, providing their age is less than 60 when the benefit is added to the policy. If chosen, we will pay your regular premiums to your policy if you are unable to work due to disability.
- Claims are subject to a waiting period of six months. This means that you would need to satisfy us that the cause of your inability to work has existed for a continuous period of at least six months before any claim. If you make a claim, you will need to provide us with medical evidence to support your claim (at your expense).
- During the waiting period you will need to continue to pay your policy premiums. If we accept the claim we will backdate the claim to the start of your disability, refund the premium paid by you during the waiting period and continue to pay until the earlier of your recovery or up to your 70th birthday. We will review the waiver of premium claim periodically.

- Waiver of premium may be added or increased in line with any regular premium changes. It can also be decreased or removed at the policy owner's request.
- Waiver of premium is subject to underwriting.
- If you stop paying regular premiums, the waiver of premium benefit and the accompanying benefit charge will stop.

Free Medical second opinion service (including your family)

When you are facing a critical medical decision – whether an important health question or a serious diagnosis – getting it right is everything. We connect you to thousands of world-renowned medical experts. As a result, you can assess your situation with an expert medical second opinion. This is a third-party service offered by Best Doctors which could be withdrawn in the future if they cease to offer the service. We will try; however, we are not compelled to find an alternative.

Partial withdrawal

Partial withdrawals can be made at any time, but if they are made during the premium payment term, a charge will be deducted – details of the charge are in the charges section of this document. There must be a minimum remaining policy value of USD 6,000, GBP 3,900, EUR 4,800 following a partial withdrawal.

Note: if your policy value does not reach USD 6,000, GBP 3,900, EUR 4,800 by the end of the fifth policy year, we reserve the right to surrender the policy on your behalf and pay the surrender value.

Regular withdrawal

You can request for a regular withdrawal by contacting us directly or through your financial adviser, but if they are made during the premium payment term, a charge will be deducted – details of the charge are in the charges section of this document.

Regular withdrawals can be taken at monthly, quarterly, half-yearly or yearly intervals and the minimum amount is USD 200, GBP 130, EUR 160.

Regular withdrawal is subject to the policy maintaining the minimum residual policy value of USD 6,000, GBP 3,900, EUR 4,800.

Full surrender

- A full surrender made before the end of the premium payment term will result in a surrender charge being applied – details of the charge are in the charges section.

Benefit claims

Zurich should be your first point of contact in the event of a benefit claim. Your financial professional will also be able to assist you.

- The person making the claim should notify us as soon as possible.
- We may need to see the relevant life insured's medical records and, in the case of a waiver of premium claim, we may need the life insured to undergo a medical examination or testing.
- Full details on how to make a claim can be found in the Policy Terms and Conditions.

Coverage exclusions

- Please refer to the Policy Terms and Conditions for a list of reasons why a benefit claim may not be paid.

There will be specific exclusions for each benefit. Generally, we may not be able to pay a benefit claim if:

- The policy was fully surrendered or terminated prior to a claim being made.
- The claim is directly or indirectly attributable to the life insured knowingly or recklessly failing to disclose or deliberately misrepresenting any fact when:
 - they apply for a policy, or
 - an increase to the policy is made, or
 - restarting premiums from when the policy was paid-up, and the non-disclosure or misrepresentation is such that it would cause us either to decline any benefits in part or in full.
- the life insured did not disclose all matters which they know, or would reasonably be expected to know, that are relevant to the acceptance of the risk by us.
- The claim arises directly or indirectly as a result of the life insured's active involvement in:
 - war or warlike operations (whether war is declared or not),
 - invasion, hostilities, mutiny, riot, civil commotion, civil war, rebellion, insurrection or the usurping of government power,
 - an act committed by a foreign enemy,
 - any activity (military or otherwise) or conspiracy that causes or leads to the proclamation of martial law or a state of siege, or
 - terrorism or conspiracy to commit terrorism which includes any activity that jeopardises the continuance of human life or causes damage to property.
- The claim arises as result of a self-inflicted injury.
